Global Dispatch

A field-first IT services partner.

SharpField Global is a UK-headquartered IT services company delivering certified field engineering, managed infrastructure, and digital solutions for enterprises, MSPs, and system integrators worldwide. We act as a seamless extension of our clients' teams — solving real-world IT challenges with the same accountability as an in-house department.

Reliability

We deliver exactly what we promise, on time, every time.

Innovation

Ahead of the curve on tooling, automation, and delivery models.

Precision

Every ticket and project handled with in-house-team care.

Priority Response

2018

Founded

One partner. Every site. No excuses.

MSPs and global enterprises don't need another vendor to manage; they need a partner who executes, every time, anywhere they operate.

01 — GLOBAL REACH

We cover where you operate

From flagship cities to remote branch locations, our engineer network spans 190+ countries — so your rollout doesn't stall at a border.

02 — RAPID DEPLOYMENT

Engineers on site, fast

4-hour priority SLAs and pre-vetted regional engineers mean we mobilise while other providers are still scheduling a call.

03 — ONE POINT OF CONTACT

One contract. Zero chasing.

No juggling regional subcontractors or fragmented vendors — one account team owns delivery across every site, every region.

Everything your IT operation needs, under one roof.

Managed IT Services

24/7 monitoring, patch management, and a dedicated account manager.

IT Support & Helpdesk

First, second, and third-line support — remote and on-site.

Field Support Engineers

Certified engineers on-site within your SLA window, anywhere.

Hardware Deployment

Multi-site staging, imaging, and commissioning at any scale.

WiFi Survey & Design

RF heat mapping and access point design, backed by data.

IT Asset Disposal

NIST-compliant data destruction with certificate of wipe.

Digital Solutions & AI Automation

Scalable digital products and intelligent automation — delivered by the same team that already manages your infrastructure.

DIGITAL SOLUTIONS

-  Web Development
-  Software Development
-  Mobile App Development
-  Shopify Development
-  Social Media Marketing
-  ERP & CRM Solutions

AI AUTOMATION

-  **Process Automation (RPA)**
Replace repetitive manual tasks with bots that run 24/7.
-  **AI Chatbots & Agents**
Intelligent assistants for support, helpdesk, and lead capture.
-  **Predictive Analytics**
Early warnings for hardware failure and security anomalies.

From call to completion in four clear steps.

Discovery Call

We assess your requirements, site conditions, and SLA needs.

Scoping & Quote

A fixed-price quotation delivered within 24 hours. Nothing hidden.

Engineer Deployment

Certified engineers dispatched with every tool they need.

Delivery & Sign-Off

Full documentation and a clear handover, every time.

Average time from first call to engineer dispatch: under 24 hours.

INDUSTRIES

Sectors we serve.

We've worked across every major industry — bringing field expertise tailored to each sector's operational demands.

WHERE WE OPERATE

One partner. Four regions.

Same standards, same accountability — whether we're deploying in London, Dubai, Singapore, or New York.

UK

United Kingdom

Nationwide field coverage from London to Edinburgh. On-site engineers, helpdesk, and managed services.

EMEA

Gulf & Middle East

UAE, Saudi Arabia, Qatar, Bahrain, Kuwait, and Oman. Deep GCC enterprise experience.

APAC

Asia Pacific

Singapore, Malaysia, Japan, Thailand, Australia, and New Zealand coverage.

US

North America

Serving US enterprises and global organisations requiring international coordination.

RECENT PROJECTS

Proof, not promises.

A sample of work delivered across our global engineer network in the last quarter.

 **Singapore**

WiFi Survey

Full RF heat-mapping and AP redesign across a 4-floor regional HQ.

 **Dubai**

Rack & Stack

Same-week server rack install and cabling for a colocation expansion.

 **London**

Store Rollout

POS and network hardware across 38 retail locations in 3 weeks.

 **Sydney**

Network Deployment

Switch and wireless upgrade across a multi-building campus.

 **Toronto**

IT Asset Disposal

Certified decommissioning for 1,200+ end-of-life devices.

 **Frankfurt**

Smart Hands

Emergency hardware swap within a 4-hour SLA at a Tier III facility.

PRICING

Transparent from the first conversation.

No hidden fees. No surprise invoices. Choose the model that fits, then scale as you grow.

PAY AS YOU GO

Ad-Hoc Support

\$65 / engineer hour

For one-off incidents and project-based field work. No contract needed.

- ✓ No minimum commitment
- ✓ Next business day dispatch
- ✓ Completion report provided
